

New in CL-150 Cohorts: ILR Levels 2, 2+ and 3 for Iraqi Arabic, Hebrew, Afghan Pashto, and Urdu

CL-150 Cohorts help linguists sustain and strengthen their language proficiency with materials that are not just effective, but current, compelling, and professionally relevant.

When you enroll in a CL-150 Cohort you receive a weekly sustainment lesson in your language, at your proficiency level, that works on your phone, tablet or laptop. Your time and progress are then included in your CL-150 Platform personal reporting and reports to designated administrators.
