

# New in the CL-150: Phrase of the Day for Cyber, Professional Linguist, and SOF Domains

We have just launched CL-150 Phrase of the Day for professional government linguists in three domains—Cyber, SOF and Professional Linguist—and three languages—Korean, Mandarin Chinese, and Russian.

The Phrase of the Day is created for professional government linguists by professional linguists. High-level, domain-specific phrases, collocations, and idioms are sourced from agency and interagency publications, policy journals, local news articles, and other authentic sources. Phrases are supported by native speaker pronunciation, example sentences, and occasional culture and grammar notes.

 Phrase:

система обнаружения  
целей

Meaning:

target acquisition system

 Example:

Новая версия системы обнаружения целей «Охотник» позволяет увеличить дальность обнаружения объектов в два раза, по утверждению компании-разработчика.

Meaning:

According to the developer, the new model of target acquisition system, Okhotnik, allows for double the acquisition range.
