

# ? Be our (virtual) guest.

You're invited to take a tour of our "home" in the CL-150 Open House!

Think of it like an episode of MTV Cribs or an issue of Architectural Digest, but instead of a celebrity leading you through their mansion, it'll be us giving you a tour of the learner, instructor, and administrator portals in the CL-150 Platform. That's just as exciting, right? (We genuinely think so!)

**We'll be covering the key functionality and benefits for learners, instructors, and program managers *and* showing off some of our newest features** (including real time activity tracking and Virtual Reality activities). Whether you're not yet licensed, you have a license that you want to make the most of, or you're a long-time CL-150 power user—there will be something for everyone.

**Join us on Tuesday May 26 from 2-3pm EDT or Wednesday May 27 from 1-2pm EDT\*.**

\*Can't make those times? Sign up anyway to receive a recording of the webinar by email after we've finished!
