

? Be our (virtual) guest.

You're invited to take a tour of our "home" in the CL-150 Open House!

A promotional graphic for the CL-150 Platform Open House. On the left, the text "CL-150 PLATFORM" is enclosed in a blue oval, with "OPEN HOUSE" written below it in large blue letters. A green banner at the bottom left contains the text "Explore CL-150 Platform tools & for learners, instructors, and program managers." On the right, a computer monitor displays the CL-150 interface, showing a "MY LEARNING PATH" with several articles and a "GOALS" section with a progress bar. The background is light blue with faint icons of a speech bubble, a book, a headset, and a laptop.

Think of it like an episode of MTV Cribs or an issue of Architectural Digest, but instead of a celebrity leading you through their mansion, it'll be us giving you a tour of the learner, instructor, and administrator portals in the CL-150 Platform. That's just as exciting, right? (We genuinely think so!)

We'll be covering the key functionality and benefits for learners, instructors, and program managers *and* showing off some of our newest features (including real time activity tracking and Virtual Reality activities). Whether you're not yet licensed, you have a license that you want to make the most of, or you're a long-time CL-150 power user—there will be something for everyone.

[Join us](#) on Tuesday May 26 from 2-3pm EDT or Wednesday May 27 from 1-2pm EDT*.

*Can't make those times? Sign up anyway to receive a recording of the webinar by email after we've finished!
