

# CL-150 Orientations & Training Materials

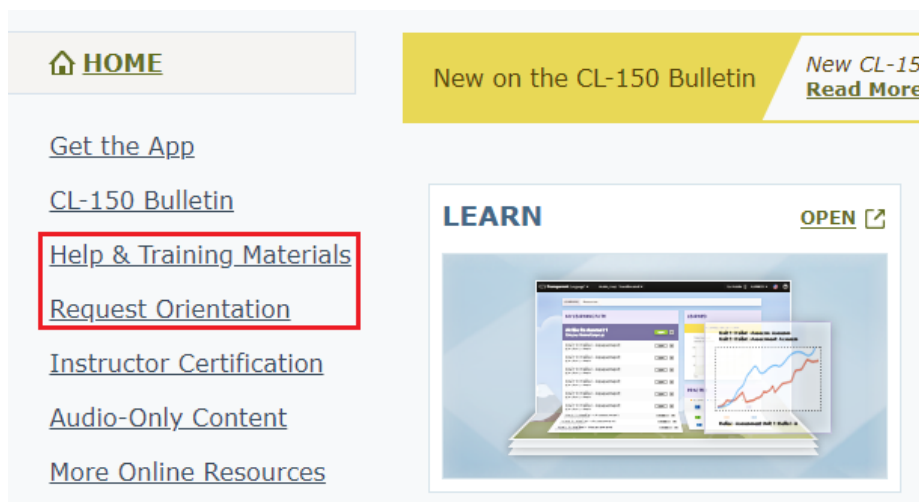

Ever discover something you didn't know you could do with a device or an app that you've used for a long time?

I've had lots of those "I didn't know I could do that!" moments with my iPhone over the years: from stumbling upon a "night shift" mode to spare my eyes from the bright screen in the dark to swiping up one day and accidentally turning on the built-in flashlight.

When it comes to the CL-150 Platform, we're here to help you make those discoveries! Whether you're a learner, instructor, or program manager, we want to show you how to get the most out of your CL-150 Platform account.

You can now [attend a live orientation session](#) or [download training materials via the CL-150 Training Kit](#).

## New User Orientations

The image shows a screenshot of the CL-150 website. On the left, there is a navigation menu with a 'HOME' button at the top. Below it are several links: 'Get the App', 'CL-150 Bulletin', 'Help & Training Materials' (which is highlighted with a red box), 'Request Orientation', 'Instructor Certification', 'Audio-Only Content', and 'More Online Resources'. To the right of the menu is a yellow banner that says 'New on the CL-150 Bulletin' and 'New CL-150 Read More'. Below the banner is a 'LEARN' button with an 'OPEN' link and an external link icon. The button features a preview image of a laptop displaying a dashboard with a line graph.

All CL-150 subscribers can attend one of the [monthly new user orientations](#). This includes orientations for:

- **Learners** using the CL-150 to acquire a language or maintain proficiency on the job.
- **Instructors** using the CL-150 to manage classes, make assignments, and monitor student activity.
- **Program Managers** using the CL-150 to organize and monitor groups of sustainers, provide an effective sustainment routine, and report on sustainers' efforts.

For more hands on assistance, CL-150 power users who have already attended an orientation can [request a custom orientation](#) for their team.

## Help & Training Materials

All CL-150 subscribers can view and download help and training materials from the [CL-150 Training Kit](#). The kit includes self-guided resources, such as help videos, tutorials, and handouts, covering everything from initial account set-up to demos of the latest features of each release.

You can access the Training Kit anytime through the “Help & Training Materials” link on the CL-150 Platform Resources page (the page you see when you log in!)

As you explore the available resources, please let us know if you have any questions or requests for additional materials: [usg@transparent.com](mailto:usg@transparent.com).
